

Customer testimonial March 2010

Sam Brown, regular guest

To everyone that will listen,

I have been living in Manchester for coming up to 2 years and have spent a number of evenings residing at room. It is place that I bring my parents for lunch, my boyfriend for dinner and just to have drinks at the bar. The food is always spectacular with a wide variety of items on the menu. They come up with unique ideas for their dishes and ways in which to present and serve them.

The staff are always smiley, friendly and out going. Also the wide range of beverages available from the bar is amazing along with the knowledge and background that the bar staff are able to inform their customers of. I would go as far as to say it is one of my favourite places to dine. This is why I think they should win best restaurant in the North!

With muchos love to Room
